Problems

Problem 1

Problem Statement

Describe the problem here. Clearly state what is required from the participants.

Constraints

List the constraints for the problem here. For example:

- Constraint 2
- Constraint 2
- Constraint 3

Examples

Provide examples to illustrate the problem. For example:

- **Input:** Example input here
- **Output:** Corresponding output here

Problem 2

Problem Statement

Describe the problem here. Clearly state what is required from the participants.

Constraints

List the constraints for the problem here. For example:

- Constraint 1
- Constraint 2
- Constraint 3

Examples

Provide examples to illustrate the problem. For example:

- **Input:** Example input here
- **Output:** Corresponding output here

Problem 3

Problem Statement

Describe the problem here. Clearly state what is required from the participants.

Constraints

List the constraints for the problem here. For example:

- Constraint 1
- Constraint 2
- Constraint 3

Examples

Provide examples to illustrate the problem. For example:

- **Input:** Example input here
- **Output:** Corresponding output here
